

Trend Micro™

MANAGED SERVICE PROVIDER PROGRAM

Transform your business as you increase value to your customers

Trend Micro provides a suite of security solutions tailored specifically for managed service providers (MSP). Our suite combines advanced threat protection techniques and a connected platform to centralize visibility across all security controls, layers, and customers. It also improves business efficiency by consolidating key functions, such as license and billing management.

MAXIMIZE YOUR CASH FLOW

- Monthly pay-as-you-go billing
- Aggregate license discounts
- No minimum license requirements
- No upfront costs
- Recurring revenue opportunities from a broad product portfolio

ENHANCE CUSTOMER SERVICE

- Self-provisioned licensing
- Multi-tenant management tools
- Third-party remote monitoring and management (RMM) and professional services automation (PSA) integrations

VENDOR SUPPORT

- Local account managers
- Software as a service (SaaS) and on-premises solutions to fit any customer environment
- Dedicated MSP technical support
- Technical Channel Account Managers

COMPLETE AND CONNECTED CYBERSECURITY:

Endpoint

- Cloud-based security detects even the most advanced malware through machine learning and layered security features.

Data Center

- Server security for physical, virtual, and cloud deployments should perform in a way that fits each environment efficiently and consistently.

Email

- No-maintenance required email solutions that deliver continuously updated protection to stop spam, malware, spear phishing, and the latest ransomware threats.

THIRD-PARTY VALIDATION - VISION, TECHNOLOGY, AND EXECUTION:

It's one thing to claim to be a leader in cybersecurity, but another when this claim has been

Trend Micro Remote Manager

Trend Micro Remote Manager (advanced features)

“The vendor partnership is about more than just product and economics. We’re all in this together. For us, it was about closing our security gaps and having a partner we could openly communicate with. We look at partnerships as a long journey and focus on their people”

Brad Bell,
Workplace IT lead network services delivery engineer

MSP SALES ENABLEMENT

Trend Micro views the MSP partnership as more than just product and economics. It's about closing security gaps, open communication, and long-term focus on people and partnerships. We're an expert in security and an advocate for MSPs so your focus can be on supporting your customers and running your business.

MSP CERTIFICATION, EMPOWERED BY TRENDSCAMPUS

As an added benefit to our valued MSP partners, Trend Micro has collaborated with the industry experts to deliver a free curriculum - online self-learning or virtual classroom by local MSP Distributor's that will enable MSPs to develop and strengthen their cybersecurity strategy, expertise, and practice.

PHISH INSIGHT

Just one client can cause severe financial and reputational damage to your organization. Phish Insight helps you conduct a simulation to evaluate the risk level across your client base and training to empower your customers to protect their business. Learn more [here](#).

“The people at Trend Micro made the difference. Trend Micro was focused on us, and we could tell they were dedicated to our vision. People need to be educated to work with a great partner, one that advocates for us and educates our customers”

James Rocker,
Nerds That Care CEO
